Indicații de parcurs

This is a variation of the red dot trail that runs along Repatu Mare creek for 3.5 kilometers, up to the ruins of the bottling plant and the local baths. From here the trail continues on a poorly defined tractor road that runs along the valley for about 600 meters. It splits from the creek to the left (north) and climbs steeply for 1.6 kilometers to get below Repatu Mare Peak and the intersection with the red stripe and red dot trails.
